The Baseball program at Putnam Science Academy is a year-round elite development program that will develop student athletes both physically and mentally to prepare them for the collegiate level on the field and in the classroom. We will begin with a fall Development Program geared toward exposure.

CT Baseball Academy is where the Mustangs will train indoors. CBA's Rapsodo and HitTRAX equipment will focus on the analytical improvements for each players skill set.

Putnam Science Academy is excited to be able to offer the extensive Development, College Guidance, and Competition that will be unmatched in our New England schedule. PSA will offer the largest spring season with approximately 28+ games along with college showcases with Prep Baseball Report.

## Typical Opponents

- \* Brunswick Academy \* American International College \* University of Hartford \* Post University
- \* Marianapolis Prep. School \* Salisbury School \* Eastern CT State University \* Mitchell College
